

## **Client Information System and Related Services**

Choose from a large selection of vehicles (activity buses, yellow buses, mini coaches, and full coaches) available with professionally trained drivers who meet all Canadian regulations and can handle both vehicle and medical emergencies. All suppliers are compliant to insurance coverage that meets or exceeds requirements stated in the Public Vehicle Act.

## **Cloud Technology and Related Professional Services**

Choose from three managed or self-managed cloud technology service models that offer secure infrastructure, 24/7 technical support, and encryptions that meet security certifications and the Ontario privacy legislation. Additional services include support for transition, migration and implementation.

## **Life Safety System Services**

Agreements that provide access to a wide range of life safety system services including inspection, testing, repair, preventative maintenance, and more.

## **Office Supplies and Fine Copy Paper**

These agreements feature a wide range of competitively-priced products to cover office and paper needs, including computer supplies, facilities supplies, furniture, acid-free, virgin and recycled paper, white and coloured paper, and more.

## **Roofing Contractor Services**

These agreements provide access to a Vendor of Record (VOR) arrangement for a wide range of services, including different types of roofing systems (e.g., built-up, single-ply, two-ply, and more) on commercial and institutional buildings.

## **Vulnerability Assessment and Penetration Testing Services**

These agreements offer a wide range of services to help identify IT security risks within organizations, including vulnerability assessment, network penetration testing, and more.
