Audio Video Captioning and Transcription Services

Get access to quality services that are compliant to Web Content Accessibility Guidelines and make content accessible to all students and audiences.

Cashless Transaction Management Solution and Related Services

Process payments via a secure gateway solution with the most up-to-date technologies.

Literacy Digital Tools and Research Digital Tools

Access high-quality literacy tools and related software for students from Kindergarten to Grade 12. These agreements provide system software that supports student literacy and research in their studies. The awarded suppliers can provide systems under Category A (Literacy Digital Tools) or Category B (Research Digital Tools). The agreements are provided as part of a Digital Learning Tools offering available to Ontario's education sector through OECM. Systems are available in English, French or a combination of the languages.

Marketing and Promotional Products

A broad range of marketing and promotional products to increase your brand's visibility. Products include awards and recognition, bags, clothing and accessories, drinkware, food, home and tools, office and stationery, outdoor and leisure products, show and event products, technology, and eco-friendly products. Additional services on this agreement are provided to support your brand and marketing efforts.

Non-Medical Grade Masks

Non-medical grade reusable and disposable masks. Quality non-medical masks offered at competitive pricing with flexible payment options.

Online Career and Individual Pathways Plan (IPP) Tools

Access to comprehensive education and career/life planning and personalized learning programs for students from Kindergarten to Grade 12. These agreements include two high-quality educational software and web-based Systems (Xello and myBlueprint) featuring online tools that are designed to meet the needs of Ontario's school boards and students – to help students achieve their personal and professional goals. These bilingual (English and French) systems are compliant with Ontario's Ministry of Education policy and program requirements, as well as the Ontario curriculum.

Print Products and Related Services

Get access to a wide variety of commercial print products, available on any substrates required with a choice of printing, finishing and binding techniques. Related services include prepress services, order fulfillment, warehousing and/or inventory, scanning, direct mail services, as well as quality control measures and comprehensive customer support.

Toner Cartridges and Related Services

These agreements offer Original Equipment Manufacturer (OEM), remanufactured and compatible toner cartridges and related products for various printer brands and models. Benefits include a no-charge product recycling program, timely, province-wide delivery, technical support and various customer incentives.
