Early Reading Screening Tools

Evidence-based English and French language early reading screening tools for school boards to provide information on the possible reading difficulties of students in Year 2 of Kindergarten, Grade 1, and Grade 2. These tools are designed to access each foundational reading skills against a benchmark, have good psychometric properties (i.e., reliability and validity), aggregate student data, and provide immediate information so it can be used by teachers to inform instruction.

Environmental Professional Services

Obtain access to services to address indoor and outdoor environmental issues, including asbestos, designated substances, mold, and other pathogens.

Graduation Gown Regalia and Related Services

Gain access to eco-friendly graduation gowns and related accessories, for a variety of graduations, from kindergarten to college and university, PhD, and other post-graduate programs.

HVAC Commissioning, Recommissioning/Retrocommissioning and Related Services

Gain access to heating, ventilation, and air conditioning commissioning services for new buildings and recommissioning and retrocommissioning services for existing buildings.

Lab Animal Feed and Supplies

Gain access to reputable suppliers offering feed, supplies, and related products and services for various lab animals (e.g., rodents, primates, felines, and swine).

Learning Management System

Get access to modern, comprehensive, and accessible cloud-based teaching and training solutions. Our supplier partner offers educators tools for course and classroom creation, customization, and management, along with effective student assessment, evaluation, and progress reporting. The system provided under this agreement is fully compliant with Ontario and Canadian privacy and security requirements.

Multi-Function Devices and A4 Printers

Featuring an expansive range of options for the purchase or lease of both Office and Production Multi-Function Devices (MFDs) as well as Single-Function and Multi-Function A4 Printers, all in a single agreement.

This solution helps you streamline your organization's printing environment and access exceptional customer support services while saving on costs. Our suppliers also offer a broad range of professional services, managed print services, application support, and more.

Online Surplus Auction and Related Services

Sell your surplus assets, such as furniture, vehicles/fleet, heavy equipment, IT hardware, and more, through an accessible online auction process.

Professional Engineering Services – Mechanical and Electrical

Gain access to professional mechanical and electrical engineering consultants for renewal projects, upgrades, energy savings and new systems in your facilities. This agreement includes inspection, audit, site reviews, design concepts and development, project drawings and specifications, cost planning and control, regulatory approvals, licenses and permits, project management, warranty review, and more.
