Softchoice | Microsoft

Softchoice AI industry spotlight

Softchoice helps business leaders and IT teams implement AI solutions by translating business goals into AI use cases, platform selection, and successful implementation and adoption plans. We make IT environments AI-ready, supported by consulting services, application and data modernization, robust security, and technology implementation capabilities. We weave IT mentorship and tested user adoption strategies into our approach from the start to ensure your customers use AI to its full potential.

Our partnerships with AI cloud leaders Microsoft, Google, and Amazon ensure the right platforms are selected for successful delivery, adoption, and outcomes. No matter the size of your vision for generative AI at your organization, our approach is personalized, and backed by insights, expertise, and experience.

Introducing Copilot for Microsoft 365

Copilot for Microsoft 365 combines the power of large language models with your own data to provide real-time intelligent assistance embedded directly into your Microsoft 365 apps. It makes brainstorming, information hunting, and creating engaging content instantaneous.

Copilot has proven immense value and is already disrupting industries everywhere. The time to get ahead of competition and implement AI properly is here. If you're ready to seize the advantage, Softchoice is ready to help you.

As an early adopter of Copilot for Microsoft 365, Softchoice is already seeing an ROI. Here are a few examples from our own internal user study:

✓ 75% reduction in time documenting meeting summaries and next steps.

✓ 62% reduction in time creating customer-facing presentations.

✓ 70% reduction in time creating eLearning modules, plus avoiding outsourcing costs.

✓ 50% reduction in time reviewing bid proposals.
