Advisory Services for Natural Gas Procurement

Obtain access to a list of qualified suppliers offering various advisory services related to natural gas procurement, including market analysis, profile development, gas transactions, portfolio administration, accounting and payment, and more.

Apparel and Related Products and Services

Gain access to a list of pre-qualified suppliers offering apparel-related products and services under five (5) categories: workwear, sportswear, spirit wear, safety shoes, and school uniforms.

Audit Related Services

Gain access to a full range of internal and external audits, including annual consolidated financial statement, enrolment, graduation, pension plan, compliance, operational, donation, scholarship fund audits, and more.

Custodial and Janitorial Supplies, Equipment, and Related Services

Gain access to a selection of custodial and janitorial supplies and equipment, as well as cleaning products and chemicals. The retendered agreement provides new optional programs and three additional product categories: New Technologies and Solutions, Laundry and Dishwashing, and Air Care Products.

Environmental Professional Services

Obtain access to services to address indoor and outdoor environmental issues, including asbestos, designated substances, mold, and other pathogens.

General Contractors for Construction Services

Gain access to general contractor services for new builds, additions, and/or renovation requirements, including mobilization, construction phase management, project close-out, and more.

Residence Furniture and Mattresses

Get access to a wide selection of residence furniture and mattresses and related services to fit modern lifestyles and living spaces. Our awarded supplier partners offer high-quality products that meet health, safety, and environmental requirements, along with enhanced product delivery and installation services, asset tagging for easy inventory management, and options for storage and disposal of products.

Signage Products and Related Services

Gain access to various signage products for large-scale and small-scale options in a variety of materials, as well as a wide range of signage-related services, such as design, facilitation, permit acquisition, installation, maintenance, and more. This agreement also adheres to the guidelines established by the provincial government for Ontario Build Signage.

Sports and Special Needs Products

Get access to a diverse range of products designed to enhance sports education and support special needs requirements across multiple categories, including team and individual sports products, physical education essentials, specialized mats, and innovative multi-sensory room products.
