

# AGREEMENT HIGHLIGHTS

## Laboratory and Science Supplies

OECEM #2024-455

Item	Description
<b>Agreement Term</b>	<b>Effective Date:</b> December 2, 2024 <b>Final Expiry Date:</b> December 1, 2029
<b>Products Available Through This Agreement</b>	<p>The agreements offer a broad range of products that are available to meet the customer’s laboratory and science supplies needs and are awarded in the following four (4) categories:</p> <ul style="list-style-type: none"><li>➤ <b>Category A – General Laboratory and Science Supplies</b></li><li>➤ <b>Category B – Biology Supplies</b></li><li>➤ <b>Category C – Chemical Supplies</b></li><li>➤ <b>Category D – General Laboratory Equipment</b></li></ul> <p><b>Category A – General Laboratory and Science Supplies:</b></p> <ul style="list-style-type: none"><li>• Brushes (e.g. beaker brushes, nylon burette brushes, test tube brushes)</li><li>• Burettes (e.g. acrylic burettes, glass burettes)</li><li>• Chromatography supplies (e.g. kits, chromatography media, tubing connectors)</li><li>• Clamps, stands, and supports (e.g. clamps, double burette clamps, support stands, tongs)</li><li>• Cuvettes (e.g. spectrophotometer cuvettes)</li><li>• Dishes (e.g. multiwell plates, petri dishes, weighing papers)</li><li>• Dissection tools (e.g. blades, dissection probes, knives, scalpels)</li><li>• Education materials (e.g. educational posters, galvanometers, molecular models, skeletons – human, animal, models)</li><li>• Electrophoresis products – supplies (e.g. agarose, DNA ladders, gel stains, nucleic acid, protein ladders, staining solutions)</li><li>• Filtration products (e.g. filter papers, syringe filters)</li><li>• Liquid containers (e.g. beakers, bottles, cylinders, flasks, vials)</li><li>• Media (e.g. cell culture media, microbiology media)</li><li>• Microplates (e.g. assay plates, cell culture plates, PCR plates)</li><li>• Microscope slides (e.g. depression slides, frosted slides, human cheek epithelial cells)</li><li>• Miscellaneous items (e.g. boxes, racks, tapes, labels)</li><li>• Mortar &amp; pestles</li><li>• Personal protective equipment (e.g. aprons, gloves, goggles, lab coats, masks)</li><li>• pH instruments (e.g. pH meters, pH papers, pH pens &amp; strips, pH probes)</li></ul>

Item	Description
<p><b>Products Available Through This Agreement</b></p>	<ul style="list-style-type: none"> <li>• Pipettes (e.g. droppers, filter tips, handypette pumps, pipette fillers, pipettors, serological pipettes, universal pipette tips)</li> <li>• Thermometers (e.g. digital thermometers, manual thermometers)</li> <li>• Tubes (e.g. Conical tubes, microcentrifuge tubes, PCR tubes, test tubes)</li> <li>• Waste disposal, cleaning products and other supplies (e.g. biohazard bags, chemical disposal containers, wipes)</li> </ul>
	<p><b>Category B – Biology Supplies</b></p> <ul style="list-style-type: none"> <li>• Biology kits (e.g. electrochemiluminescence (ECL), enzymes &amp; digestion kits)</li> <li>• Dissection/preserved specimens (e.g. cow anatomy, earth worms, frog anatomy, owl pellets, pig anatomy and parts, rats, sheep anatomy)</li> <li>• Living Specimens (e.g. butterflies, live paramecium aurelia, live paramecium bursaria, live paramecium multimicronucleatum culture)</li> <li>• Microscope slides (e.g. human blood slides, onion mitosis slides, paramecium caudatum slides, paramecium multinicronucleatums slides)</li> <li>• Polymerase chain reaction (PCR) products (e.g. DNA polymerase, nucleotides)</li> </ul>
	<p><b>Category C – Chemical Supplies</b></p> <ul style="list-style-type: none"> <li>• Acids (e.g. acetic acid, potassium acid phthalate)</li> <li>• Alcohols &amp; solvents (e.g. acetone, ethanol, ethyl acetate, hexanes, isopropyl alcohol, methanol)</li> <li>• Analytical and chromatography reagents (e.g. copper II chloride reagent, lithium chloride reagent, potassium chloride reagent, silver nitrate reagent)</li> <li>• Antibiotics (e.g. penicillin products)</li> <li>• Buffers and solutions (e.g. bases, buffer solution, pH buffer kits)</li> <li>• Inorganic compounds (e.g. dihydrogen monoxide (water), hydrochloric acid, potassium chloride, calcium chloride)</li> <li>• Metallic elements (e.g. calcium chloride, magnesium)</li> <li>• Organic compounds (e.g. graphite, mineral oil)</li> <li>• Organometallics (e.g. cobaltocene, ferrocene)</li> <li>• Protein Analysis Reagents (e.g. magnetic beads, pierce protease inhibitor)</li> <li>• Salts and inorganics (e.g. ammonium chloride, calcium hydroxide, magnesium sulfate, sodium sulfate, zinc sulfate)</li> </ul>
	<p><b>Category D – General Laboratory Equipment</b></p> <ul style="list-style-type: none"> <li>• Autoclaves &amp; sterilizers (e.g. sterilizers, tabletop autoclaves)</li> <li>• Balances &amp; scales (e.g. balances, scales)</li> <li>• Burners (e.g. Bunsen burners, Tirill burners)</li> <li>• Cabinets (e.g. biological safety cabinets, flammables cabinets, general purpose storage cabinets)</li> <li>• Centrifuges (e.g. benchtop/tabletop centrifuges, microcentrifuges, rotors)</li> <li>• Chromatography Systems/Equipment (e.g. gas chromatography (GC), high pressure liquid chromatography (HPLC))</li> <li>• Cold storage products (e.g. lab freezers, lab refrigerators, lab ultra-low freezers)</li> <li>• Electrophoresis Products – Equipment (e.g. gel apparatus, imaging systems)</li> <li>• Hot plates and hotplate stirrers (e.g. magnetic stir bars, magnetic stirrers, hot plates)</li> <li>• Incubators (e.g. dry baths, water baths)</li> <li>• Laboratory/classroom instruments (e.g. economy Wimshurst machine, multimeters, ray boxes, spectrophotometers, Van De Graff generators)</li> <li>• Laboratory ventilation equipment (e.g. laboratory hoods, radioisotopes)</li> </ul>

Item	Description				
	<ul style="list-style-type: none"> <li>• Microscopes (e.g. compound advanced, compound binocular, compound dual view, compound monocular, compound trinocular, confocal, digital, digital fluorescence, digital – with detachable tablet, inverted, LED, lumascope, research grade, stereo microscopes)</li> <li>• Mixers &amp; shakers (e.g. blenders, homogenizers, rockers, rotators)</li> <li>• Ovens &amp; furnaces (e.g. furnaces, ovens)</li> </ul>
