The following Customers were engaged in the development of the Deliverables set out in this RFP:

- (a) Brock University;
- (b) Trillium Lakelands District School Board; and,
- (c) Seneca College of Applied Arts and Technology.

The above Customers are **not**, in any way, committed to participating in the Master Agreement resulting from this RFP.

1.6 Award Strategy

OECM may, through this RFP process, enter into Master Agreements with one (1) or more Suppliers for the provision of the Software and Services.

The Term is intended to be for three (3) years, with an option in favour of OECM to extend the Term on the same terms and conditions for up to one (1) additional year. Performance as set out in Appendix D – Supplier Performance Management Scorecard and, if applicable, Supplier Recognition Program evaluation results will be considered when contemplating a Master Agreement extension.

Customers participating in the Master Agreements will execute a CSA with a Supplier as attached in Appendix A – Form of Master Agreement. Prior to executing a CSA, the Customer may negotiate their unique requirements and further negotiate with the Supplier and mutually agree to additional terms and conditions (e.g., privacy and security assessments, reporting, Rates specific to the Customer's requirements and volumes), ensuring the additional terms and conditions are not in any way inconsistent with the Master Agreement agreed to by OECM and the Supplier.

The Supplier must provide a copy of every CSA to OECM within thirty (30) days of execution.

1.6.1 No Contract until Execution of Written Master Agreement

This RFP process is intended to identify Proponents for the purpose of negotiation of potential Master Agreements. The negotiation process is further described in Part 3 – Evaluation of Proposals, Section 3.7 of this RFP.

No legal relationship or obligation regarding the procurement of any Services shall be created between the Proponent and OECM by this RFP process until the successful completion of negotiation and execution of a written Master Agreement for the provision of the Services has occurred.

The Master Agreement must be fully executed before the provision of any Deliverables commences.

1.6.2 Customer's Usage of Master Agreements

The establishment and use of the Master Agreement consists of a two (2) part process.

Part One, which is managed by OECM, is the creation of the Master Agreement through the issuance of this RFP, the evaluation of Proposals submitted in response to it and the negotiation and execution of the Master Agreement.

Part Two, the Second Stage Selection Process ("Second Stage") is managed by the Customer or by OECM on the Customer's behalf and is focused on the Customer's specific needs. Depending on the Customer's internal policies, and potential dollar value of the Services a Customer may:

- (a) Select a Supplier, obtain Rates and sign a CSA; or,
- (b) Seek Rates and other relevant Service information specific to a Customer's organization (e.g., by issuing a non-binding request via a Second Stage tool (e.g., Request for Services ("RFS")), or Customer's process (e.g., directly or via an online e-tendering platform)) from the Supplier for their specific Service requirements (e.g., specific Software modules/features, Services, reporting, lower Rates, Rate refresh process, invoicing and volumes). If selected by the Customer, the Supplier shall provide the Services in accordance with the specifications stated in the Master Agreement and in the Customer's CSA.

When a Second Stage request is issued, which does not constitute a contract A, contract B situation, it will identify the required Services or it may request the Supplier to propose appropriate Services to fulfill the Customer's requirements and any other applicable information.

The Customer may negotiate their unique requirements (e.g., specific Software modules/features, Services, reporting, lower Rates, Rate refresh process, invoicing and volumes) with the Supplier and mutually agree to additional terms and conditions ensuring the additional terms and conditions are not in any way inconsistent with the Master Agreement.

The Supplier must respond to a Second Stage request and, at minimum, the response should set out the following:

- (a) Proposed Software and Services (e.g., RFP Deliverables); and,
- (b) Final, net Rates. The Rates should be valid for a period of not less than ninety (90) days, or as requested by the Customer. Limited time offer Rates and/or promotional Rates must be specified by the Supplier, if applicable to the specific Second Stage request.

1.6.3 No Guarantee of Volume of Work or Exclusivity of Master Agreement

The volume information contained in this RFP constitutes an estimate and is supplied solely as a guideline to the Proponent. Such information is not guaranteed, represented, or warranted to be accurate, nor is it necessarily comprehensive or exhaustive.

Nothing in this RFP is intended to relieve the Proponent from forming its own opinions and conclusions with respect to the matters addressed in this RFP. Volumes are an estimate only and may not be relied on by the Proponent.

OECM makes no guarantee of the value or volume of work to be assigned to the Supplier.

The Master Agreement executed with the Supplier may not be an exclusive Master Agreement for the provision of the Deliverables. Customers may contract with others for the same or similar Deliverables to those described in this RFP.

PART 3 – EVALUATION OF PROPOSALS

3.1 Stages of Proposal Evaluation

OECM will conduct the evaluation of Proposals in the following stages:

Stage	Description	Refer to RFP Section	Scoring Methodology and Maximum Points (if applicable)	Minimum Threshold Requirement (if any)
Stage I	Qualification Response	3.2	Pass/Fail	Pass
Stage II	Technical Response	3.3	600	360
Stage III	Commercial Response	3.4	400	Not Applicable
Stage IV	Cumulative Score	3.5	1000	Not Applicable
Stage V	Tie Break Process	3.6	Not Applicable	Not Applicable
Stage VI	Negotiations	3.7	Not Applicable	Not Applicable
Stage VII	Master Agreement Finalization	3.8	Not Applicable	Not Applicable

3.2 Stage I – Review of Qualification Responses (Pass/Fail)

Stage I will consist of a review to determine which Proposals comply with all qualification requirements.

The Proponent **must** complete the following forms in Ontario’s Tenders Portal (“OTP”) to qualify and proceed to the next stage of evaluation.

Title	OTP Envelope
Qualification Response	Qualification
Appendix B – Commercial Response (in Microsoft Excel format only)	Commercial
Appendix G –OEM Authorized Reseller Letter	Qualification

If the Proponent fails to insert information contained in the above forms, OECM may provide an opportunity to rectify such deficiency within a period of two (2) Business Days from notification thereof. Only Proponents satisfying the identified deficiencies within allotted time will proceed to Stage II.

Other than inserting the information requested on the qualification submission forms set out above, the Proponent may not make any changes to any of the forms. Any Proposal containing any such changes, whether on the face of the form or elsewhere in the Proposal, may be disqualified.

3.3 Stage II – Technical Response

Stage II will consist of an evaluation and scoring of the Technical Response of each Eligible Proposal.

The Technical Response includes a series of questions the Proponent is required to respond to in order to demonstrate the Proponent’s ability to fulfill the RFP Deliverables. Only information contained within the Technical Response will be evaluated in Stage II.

Only Proposals that meet or exceed the minimum thresholds will receive a **pass** in this stage and proceed to Stage III of the evaluation process. The overall threshold for the Technical Response is sixty percent (60%) or three hundred and sixty points (360).

Point allocations for the Technical Response sections are as follows:

Technical Response Sections	Available Points	Minimum Threshold
1. Proponent's Experience and Qualifications	50	30
2. Software Solution Features	300	180
3. Application Security and Encryption	100	5
4. Reporting to Customers	20	5
5. Implementation and Training Services	60	10
6. Maintenance Services	20	N/A
7. Customer Support	20	5
8. ESG Considerations	30	N/A
TOTAL POINTS:	600	360

Detailed sub-point allocations and minimum threshold are set out in the Technical Response on OTP.

In the case that contradictory information or information that contains conditional statements is provided, OECM will determine whether the response complies with the requirements, and may seek clarification from the Proponent.

A Proposal that does not respond to a particular question (e.g., it is left blank) or contains a response of N/A or not applicable will receive a zero (0) score.

Stage II resulting scores per Proposal will be used when determining the cumulative score as described below in Section 3.5.

3.4 Stage III – Commercial Response

The Proponent **must** complete and upload Appendix B – Commercial Response, in Microsoft Excel format only, into the OTP Commercial Envelope for this stage of evaluation.

Upon the completion of Stage II of the evaluation, the Commercial Response will be opened for all Eligible Proposals.

Point allocations for the Commercial Response sections are as follows:

Commercial Response Section	Available Points
Software Rates	380
Additional Volume Discounts	20
TOTAL POINTS:	400

Detailed sub-point allocations are set out in the Appendix B – Commercial Response on OTP.

Rates will be evaluated using a relative formula. See example below:

EXAMPLE OF COMMERCIAL RESPONSE EVALUATION FOR ONE-YEAR COMMITMENT		
Proposed Rates	Calculation	Resulting Points
If Proponent 1 proposes the lowest Rate of \$100.00, it would receive 100% of the points allocated.	$\$100 \div \100×100 Points	100

EXAMPLE OF COMMERCIAL RESPONSE EVALUATION FOR ONE-YEAR COMMITMENT		
Proposed Rates	Calculation	Resulting Points
If Proponent 2 proposes the second lowest Rate of \$200.00, it would receive 50% of the points allocated.	$\$100 \div \200×100 Points	50
If Proponent 3 proposes the third lowest Rate of \$400.00, it would receive 25% of the points allocated.	$\$100 \div \400×100 Points	25

Where \$0.00 is entered in any Rate cell, it is deemed to mean that the particular Service **will be provided to Customers at no additional cost**. Therefore, when evaluating and scoring the Rates, a Proposal specifying \$0.00 in a Rate cell in the Commercial Response shall receive the maximum point allocation for that particular Service. The remaining Proposals will be evaluated using a relative formula based on the remaining percentage of available points regardless of the Proposals of \$0.00 Rate as per below example.

EXAMPLE – WHERE FIVE (5) PROPOSALS WERE RECEIVED		
Number of Proposals with a proposed Rate of \$0.00 for a particular Service	The number of remaining Proposals with a Service Rate greater than \$0.00	The percentage (%) of the Service sub-point allocation for the remaining Proposals will be:
1	4	80%
2	3	60%
3	2	40%
4	1	20%

Where N/A or not applicable is entered in a Commercial Response cell or a Commercial Response cell is left blank for the Service, it is deemed to mean that the particular Service will **not be provided** to Customers. Therefore, when evaluating and scoring the Rates, a Proposal specifying N/A or not applicable, or left blank in Appendix B – Commercial Response will receive a zero (0) point allocation for that particular pricing section.

Stage III resulting scores per Eligible Proposal will be used when determining the cumulative as described below in Section 3.5.

3.5 Stage IV – Cumulative Score

At this stage, the scores from Stages II, and III will be combined for each Eligible Proposal.

Subject to the express and implied rights of OECM; the Proponents with the highest scoring Eligible Proposals or all Proponents may become the Preferred Proponents, and be invited to negotiations, as further described below.

Reference checks will be performed to confirm or clarify information provided within the Proposal. The reference checks themselves will not be scored, however, OECM may adjust Technical Response scores related to the information obtained during the reference check.

3.6 Stage V – Tie Break Process

At this stage, where two (2) or more of the highest scoring Eligible Proposals achieve a tie score on completion of the Stage IV, OECM may invite all Proponents to negotiations or break the tie by selecting the Proposal with the highest score in Stage II – Technical Response.

3.7 Stage VI – Negotiations

Concurrent negotiations, with the Preferred Proponents, will be based on the RFP Deliverables, and the Proposals, understanding that OECM is seeking the best overall solution and value for money for Customers.

The negotiations may include:

- (a) RFP Deliverables;
- (b) Master Agreement management (e.g., performance, KPIs, penalties, reporting);
- (c) Master Agreement terms and conditions;
- (d) Additional references, if required; and
- (e) Rates.

OECM may also request supplementary information from a Preferred Proponent to verify, clarify or supplement the information provided in its Proposal or confirm the conclusions reached in the evaluation and may include requests by OECM for improved Rates.

OECM intends to complete negotiations within fifteen (15) calendar days after notification. If, for any reason, OECM and a Preferred Proponent fail to reach an agreement within the aforementioned timeframe, OECM may:

- i. Terminate negotiations with that particular Preferred Proponent;
- ii. Extend the negotiation timeline; or,
- iii. Publish one (1) or some of the Suppliers, who have executed Master Agreements, within our promotional marketing launch.

Other Master Agreements, if successfully negotiated with other Preferred Proponents would be added to OECM's website at a later date.

Upon successful negotiations, the Preferred Proponent will be invited to execute a Master Agreement.

3.8 Stage VII – Master Agreement Finalization

The Preferred Proponent will be given five (5) Business Days to execute the Master Agreement, unless otherwise specified by OECM. Once the Master Agreement has been executed, Customers may execute a CSA.

OECM shall at all times be entitled to exercise its rights under Section 4.6.

OECM shall have the right at any time after the Closing Date to seek clarification from any Proponent in respect of the Proposal, without contacting any other Proponent.

OECM will exercise this right in a similar manner for all Proponents.

Any clarification sought shall not be an opportunity for the Proponent to either correct errors or to change its Proposal in any substantive manner. Subject to the qualification in this provision, any written information received by OECM from a Proponent in response to a request for clarification from OECM may be considered, if accepted, to form an integral part of the Proposal.

OECM shall not be obliged to seek clarification of any aspect of any Proposal.

4.3.14 Verification of Information

OECM shall have the right, in its sole discretion, to:

- (a) Verify any Proponent's statement or claim made in its Proposal or made subsequently in a clarification, or discussion by whatever means OECM may deem appropriate, including contacting persons in addition to those offered as references, and to reject any Proponent statement or claim, if such statement or claim or its Proposal is patently unwarranted or is questionable, which may result in changes to the scores for the Proponent's Technical Response; and,
- (b) Access the Proponent's premises where any part of the work is to be carried out to confirm Proposal information, quality of processes, and to obtain assurances of viability, provided that, prior to providing such access, the Proponent and OECM shall have agreed on access terms including pre-notification, extent of access, security and confidentiality. OECM and the Proponent shall each bear its own costs in connection with access to each other's premises.

The Proponent shall co-operate in the verification of information and is deemed to consent to OECM verifying such information, including references.

4.3.15 Proposal Acceptance

The lowest price Proposal or any Proposal shall not necessarily be accepted. While price is an evaluation criterion, other evaluation criteria as set out in Part 3 will form a part of the evaluation process.

4.3.16 RFP Incorporated into Proposal

All provisions of this RFP are deemed to be accepted by each Proponent and incorporated into each Proposal.

4.3.17 Exclusivity of Contract

The Master Agreement, if any, with the Preferred Proponent will not be an exclusive agreement for the provision of the described Deliverables.

4.3.18 Substantial Compliance

OECM shall be required to reject Proposals, which are not substantially compliant with this RFP.

4.3.19 No Publicity or Promotion

No Proponent, including the Preferred Proponent, shall make any public announcement or distribute any literature regarding this RFP or otherwise promote itself in connection with this RFP or any arrangement entered into under this RFP without the prior written approval of OECM.

In the event that a Proponent, including the Preferred Proponent, makes a public statement either in the media or otherwise in breach of this requirement, in addition to any other legal remedy it may have in law, in equity or within the context of this RFP, OECM shall be entitled to take all reasonable steps as may be deemed necessary by OECM, including disclosing any information about a Proposal, to provide accurate information and/or to rectify any false impression which may have been created.

4.4 Negotiations, Timelines, Notification and Debriefing

OECM reserves the right to accept or reject any Proposals in whole or in part; to waive irregularities and omissions, if doing so is in the best interests of OECM and its Customers.

The Preferred Proponent shall execute the Master Agreement in the form attached to this RFP with negotiated changes, if any, and satisfy any other applicable conditions of this RFP within twenty (20) days of invitation to enter into negotiations. This provision is solely to the benefit of OECM and may be waived by OECM at its sole discretion.

If the Preferred Proponent and OECM cannot execute the Master Agreement within the allotted twenty (20) days, OECM will, as described in Section 3.7 and 3.8, be at liberty to extend the timeline, request, terminate discussions/negotiations with the Preferred Proponent, or publish one (1) or some of the Suppliers, who have executed Master Agreements within OECM's promotional marketing launch. Other Master Agreements, if successfully negotiated with other Preferred Proponents would be added to OECM's website at a later date.

4.4.2 Failure to Execute a Master Agreement

When the Preferred Proponent successfully reaches an agreement with OECM at the end of the negotiation process in accordance with the evaluation set out in this RFP, the Preferred Proponent will be allotted five (5) Business Days to execute the Master Agreement unless otherwise specified by OECM.

If the Preferred Proponent cannot execute the Master Agreement within the allotted timeframe, OECM may rescind the invitation to execute a Master Agreement or publish one (1) or some of the Suppliers, who have executed Master Agreements within OECM's promotional marketing launch. Other Master Agreements, if successfully negotiated with other Preferred Proponents would be added to OECM's website at a later date.

In accordance with the process rules in this Part 4 – Terms and Conditions of the RFP Process, there will be no legally binding relationship created with any Proponent prior to the execution of a written agreement.

4.4.3 Master Agreement

- (a) Any such Master Agreement will commence upon signature by the duly authorized representatives of OECM and the Preferred Proponent; and,

4.4.5 Debriefing

Any Proponent may request a debriefing after receipt of a notification of award. All requests must be in writing to OECM and should be made within sixty (60) days of notification of award. The intent of the debriefing information session is to aid the Proponent in presenting a better proposal in subsequent procurement opportunities. Any debriefing provided is not for the purpose of providing an opportunity to challenge the procurement process.

4.4.6 Bid Dispute Resolution

In the event that the Proponent wishes to review the decision of OECM in respect of any material aspect of the RFP process, and subject to having attended a debriefing, the Proponent shall submit a protest in writing to OECM within ten (10) days from such a debriefing.

Any request that is not timely received will not be considered and the Proponent will be notified in writing.

4.5.3 Proponent's Submission

All correspondence, documentation, and information provided in response to or because of this RFP may be reproduced for the purposes of evaluating the Proposal.

- (c) Consent – It is the responsibility of the Proponent to obtain the consent of such individuals prior to providing the information to OECM. OECM will consider that the appropriate consents have been obtained for the disclosure to and use by OECM of the requested information for the purposes described.

4.5.5 Non-Disclosure Agreement

OECM reserves the right to require any Proponent to enter into a non-disclosure agreement satisfactory to OECM.

- (d) Not engage in any improper conduct to gain influence or competitive advantage especially that which would put OECEM or its Customers at risk of violating anti-bribery and/or anti-corruption laws. The Supplier must ensure that the requirements of all these applicable laws are met, and not engage in any form of corrupt practices including extortion, fraud or bribery;
- (e) Ensure that any outsourcing and/or subcontracting used to fulfill Services are identified and approved by the Customer and monitored to ensure compliancy with contractual obligations and adherence to OECEM's SCC.
