PART 1 – INTRODUCTION

This non-binding Request for Proposals (“RFP”) is an invitation to obtain Proposals from qualified Proponents for Vehicle Rental and Related Services as described in Part 2 – The Deliverables.

The Services are further described in Part 2 – The Deliverables in the following two (2) categories:

- Category A – Passenger Vehicle; and,
- Category B – Commercial Vehicle;

Proponents may submit proposals for one (1) or both the categories. Each category will be evaluated, scored, and awarded independently. Additionally, each Zone within the categories will be evaluated, scored and awarded independently.

OECM intends to award one (1) or more Master Agreements per category per Zone but may not award more than practicable, with the Term of the Master Agreement (“Term”) of six (6) years with no option to extend it further.

This RFP is issued by OECM.

1.1 Objective of this RFP

The objective of this RFP is to:

- Provide OECM Customers the ability to purchase Vehicle Rental and Related Services from qualified Suppliers to satisfy their requirements;
- Reduce the costs of associated competitive procurement processes on an ongoing basis (i.e., fewer competitive procurement documents issued by Customers);
- Provide an access to a comprehensive range of well-maintained vehicles that comply with safety standards and are equipped with the necessary amenities and technologies;
- Provide a Vehicle Rental and Related Services in a timely manner, demonstrating value for money;
- Provide comprehensive insurance options to safeguard against accidents and damages during the rental period;
- Provide Customers with flexible rental terms and pricing options that align with their budget and usage patterns;
- Provide a complete and comprehensive, user-friendly transparent booking, reservation and billing process;
- Provide Customers with professional and responsive Customer support and account management; and,

1.2 Customer Engagement

The following Customers were engaged with the development of the Deliverables set out in this RFP:

- Trent University;
- City of Mississauga; and,
- Children’s Hospital of Eastern Ontario.

The above Customers are **not**, in any way, committed to participating in the Master Agreement resulting from this RFP.

1.3 Award Strategy

OECM may, through this RFP process, enter into Master Agreements with one (1) or more Suppliers per category and per Zone but may not award more than practicable,.

The Term is intended to be for six (6) years, with no option to extend it further. Performance throughout the term of the awarded Master Agreement will be evaluated as set out in Appendix D – Supplier Performance Management Scorecard.

Customers participating in the Master Agreements will execute a CSA with a Supplier as attached in Appendix A – Form of Master Agreement. Prior to executing a CSA, the Customer may negotiate their unique requirements and further negotiate with the Supplier and mutually agree to additional terms and conditions (e.g., reporting, Rates specific to the Customer's requirements and volumes) ensuring the additional terms and conditions are not in any way inconsistent with the Master Agreement agreed to by OECM and the Supplier.

The Supplier must provide a copy of every CSA to OECM within thirty (30) days of execution.

1.3.1 No Contract until Execution of Written Master Agreement

This RFP process is intended to identify Proponents for the purpose of negotiation of potential Master Agreements. The negotiation process is further described in Part 3 – Evaluation of Proposals, Section 3.7 of this RFP.

No legal relationship or obligation regarding the procurement of any Services shall be created between the Proponent and OECM by this RFP process until the successful completion of negotiation and execution of a written Master Agreement for the provision of the Services has occurred.

The Master Agreement must be fully executed before the provision of any Deliverables commences.

1.3.2 Customer's Usage of Master Agreements

The establishment and use of the Master Agreement consists of a two (2) part process.

Part One, which is managed by OECM, is the creation of the Master Agreement through the issuance of this RFP, the evaluation of Proposals submitted in response to it and the negotiation and execution of the Master Agreement.

Part Two, the Second Stage Selection Process ("Second Stage") is managed by the Customer or by OECM on the Customer's behalf and is focused on the Customer's specific needs. Depending on the Customer's internal policies, and potential dollar value of the Services a Customer may:

- (a) Select a Supplier and sign a CSA; or,
- (b) Seek Rates and other relevant Service information specific to a Customer's organization (e.g., by issuing a non-binding request via a Second Stage tool (e.g., Request for Services ("RFS")), or Customer's process (e.g., directly or via an online e-tendering platform)) from the Supplier for their specific Service requirements (e.g., reporting, Rates, Rate refresh process and timing, invoicing). If selected by the Customer, the Supplier shall provide the Services in accordance with the specifications stated in the Master Agreement and in the Customer's CSA.

When a Second Stage request is issued, which does not constitute a contract A, contract B situation, it will identify the required Services or it may request the Supplier to propose appropriate Services to fulfill the Customer's requirements and any other applicable information.

The Customer may negotiate their unique requirements (e.g., reporting, Rates, invoicing) with the Supplier and mutually agree to additional terms and conditions ensuring the additional terms and conditions are not in any way inconsistent with the Master Agreement.

The Supplier must respond to a Second Stage request and, at minimum, the response should set out the following:

- (a) Proposed Vehicle Rental and Related Services;
- (b) Incentives;
- (c) Delivery locations;
- (d) Invoicing; and,

- (e) Final, net Rates. The Rates should be valid for a period of not less than ninety (90) days, or as requested by the Customer. Limited time offer Rates and/or promotional Rates must be specified by the Supplier, if applicable to the specific Second Stage request.

1.3.3 No Guarantee of Volume of Work or Exclusivity of Master Agreement

Nothing in this RFP is intended to relieve the Proponent from forming its own opinions and conclusions with respect to the matters addressed in this RFP. Volumes are an estimate only and may not be relied on by the Proponent.

OECM makes no guarantee of the value or volume of work to be assigned to the Supplier.

The Master Agreement executed with the Supplier may not be an exclusive Master Agreement for the provision of the Deliverables. Customers may contract with others for the same or similar Deliverables to those described in this RFP.

2.18.3 Supplier Performance Management Scorecard

To ensure Master Agreement requirements are met, the Supplier's performance will be measured and tracked by OEM as described in Appendix D – Supplier Performance Management Scorecard.

2.18.4 Rate Refresh

OEM's goal is to keep Rates as low as possible for Customers. However, the Supplier may request a Rate refresh on anniversary date of the Master Agreement and every anniversary thereafter.

The Supplier shall provide a written notice with supporting documentation to OEM at least one-hundred-and-twenty (120) days prior to the Master Agreements' anniversary date annually if requesting a Rate refresh.

As part of any review OEM will consider Rate adjustments that reflect changes in operation, adjustments due to new or changed municipal, provincial, or federal regulations, by-laws, and fluctuations in foreign exchange rates as published by the Bank of Canada, tariffs, or ordinances. Any Rate refresh request from a Supplier must be accompanied by supporting documentation (e.g., detailed calculations and individual Customer impact analysis, letter from OEM) to support any Rate adjustment. OEM may use a third-party index (e.g., Consumer Price Index) in its Rates review. OEM will not consider any fixed costs or overhead adjustments in its review.

Volumes and Supplier performance (i.e., Supplier Performance Management Scorecard and/or Supplier Recognition Program evaluation results) will be considered when contemplating a Rate refresh.

If a proposed Rate refresh was agreed upon between OECM and the Supplier, the new Rates would only be applicable to Services ordered after the effective date of the new Rates. The effective date of the Rate change must allow Customers a minimum of thirty (30) days' prior notice from OECM. If, however, a proposed Rate increase is not accepted by OECM the Master Agreement may be terminated within one-hundred and twenty (120) days unless the Supplier agrees to withdraw its request for a Rate increase and continue the provision of the Services at the existing agreed upon Rates.

If a Rate refresh is not requested, the existing Rates shall remain in effect until the next Rate refresh opportunity.

Decreases to the Rates shall be accepted at any time during the Term.

Based on above, the Master Agreement will be amended, if needed.

2.18.5 Process to Add Other Services

During the Term, the Supplier may request adding other Services (e.g., newly available Services) to the Master Agreement to align with Customer needs. OECM will review and assess the request and may accept or reject based on Services in the current Master Agreement and Customer needs.

The Supplier shall provide written notice to OECM of at least one hundred and twenty (120) days if requesting a Service refresh.

Additional Service requests from the Supplier must be accompanied by appropriate documentation (e.g., Service description, rationale for the addition, proposed Rates).

Volumes and Supplier's performance (i.e., as described in Appendix D – Supplier Performance Management Scorecard and/or Supplier Recognition Program evaluation results) will be considered when contemplating adding Services. In the event the Supplier's performance is poor and/or unacceptable, OECM may not agree to the Supplier's Service refresh request. All other Services shall remain unchanged.

Rates, for newly added Service will be negotiated at the time of the request.

Based on above, the Master Agreement will be amended, if needed.

2.18.6 Saving Calculation

OECM tracks, validates, and reports on savings on all of its agreements. Collaborative procurement processes enables several types of savings including direct and indirect savings (e.g., process improvement, lead time reduction, standardization, economies of scale, cost avoidance).

The Supplier shall report Customer savings (e.g., Master Agreement Rate versus Rate invoiced to Customer, total cost of ownership, cost avoidance and/or other savings).

2.18.7 OECM's Supplier Recognition Program

OECM's Suppliers play a fundamental role in ensuring Customers' needs are met with consistent and exceptional service. As part of OECM's efforts to provide greater value to Customers and support their Supplier selection process across OECM agreements, OECM has a Supplier Recognition Program ("SRP"). Through the SRP, OECM objectively assesses Supplier's performance using an open, fair and transparent framework to recognize and reward top-performing Suppliers on an annual basis.

Further details will be provided to the Suppliers.

2.18.8 Reporting to OECM

The Supplier shall be responsible for providing reports as further described in Appendix C – Supplier Reporting Requirements.

PART 3 – EVALUATION OF PROPOSALS

3.1 Stages of Proposal Evaluation

OECM will conduct the evaluation of Proposals in the following stages:

Stage	Description	Refer to RFP Section	Scoring Methodology and Maximum Points (if applicable)	Minimum Threshold Requirement (if any)
Stage I	Qualification Response	3.2	Pass/Fail	Pass
Stage II	Technical Response	3.3	150 Points (common for both categories)	75 Points
Stage III	Commercial Response	3.4	100 Points (per Category per zone)	Not Applicable
Stage IV	Cumulative Score	3.5	250 (per category per zone) Points	Not Applicable
Stage V	Tie Break Process	3.6	Not Applicable	Not Applicable
Stage VI	Negotiations	3.7	Not Applicable	Not Applicable
Stage VII	Master Agreement Finalization	3.8	Not Applicable	Not Applicable

3.2 Stage I – Review of Qualification Responses (Pass/Fail)

Stage I will consist of a review to determine which Proposals comply with all qualification requirements.

The Proponent **must** complete the following forms in (“Ontario’s Tenders Portal (“OTP”) to qualify and proceed to the next stage of evaluation.

Title
Form of Offer
Compliance with Form of Master Agreement
Appendix B – Commercial Response (in Microsoft Excel format only)

If the Proponent fails to insert information contained in the above forms, OECM may provide an opportunity to rectify such deficiency within a period of two (2) Business Days from notification thereof. Only Proponents satisfying the identified deficiencies within allotted time will proceed to Stage II.

Other than inserting the information requested on the qualification submission forms set out above, the Proponent may not make any changes to any of the forms. Any Proposal containing any such changes, whether on the face of the form or elsewhere in the Proposal, may be disqualified.

3.3 Stage II – Technical Response

Stage II will consist of an evaluation and scoring of the Technical Response of each Eligible Proposal.

The Technical Response includes a series of questions the Proponent is required to respond to in order to demonstrate the Proponent’s ability to fulfill the RFP Deliverables. Only information contained within the Technical Response will be evaluated in Stage II.

If a Proponent is submitting a Proposal for more than one (1) Category, the Technical Response questions applicable to all Categories should be answered only once.

Only Proposals that meet or exceed the minimum thresholds will receive a **pass** in this stage and proceed to Stage III of the evaluation process. While the overall threshold for the Technical Response is fifty percent

(50%) or seventy five points (75), the Technical Response section 3 is the only individual section that has a minimum threshold of seventy five (75) points.

Point allocations for the Technical Response sections are as follows:

Technical Response Sections	Available Points	Minimum Threshold, if any
Proponent's Experience and Qualifications	30	NA
Proponent's Customer Support and Account Management	20	NA
Insurance	20	NA
Booking Process	15	NA
Maintenance and Vehicle Inspection	20	NA
Billing and Invoicing	15	NA
Value Added Services	10	NA
Environmental, Social and Governance (ESG) Considerations	20	NA
TOTAL POINTS:	150	75

Detailed sub-point allocations and minimum thresholds are set out in the Technical Response on OTP.

In the case that contradictory information or information that contains conditional statements is provided, OECM will determine whether the response complies with the requirements, and may seek clarification from the Proponent.

A Proposal that does not respond to a particular question (e.g., it is left blank) or contains a response of N/A or not applicable will receive a zero (0) score.

Stage II resulting scores per Proposal will be used when determining the cumulative score as described below in Section 3.5.

3.4 Stage III – Commercial Response

The Proponent **must** complete and upload Appendix B – Commercial Response, in Microsoft Excel format only, into the OTP Commercial Envelope for this stage of evaluation.

Upon the completion of Stage II of the evaluation, the Commercial Response will be opened for all Eligible Proposals.

Point allocations for the Commercial Response sections for Category A (Per category per zone) are as follows:

Commercial Response Sections	Category A Available Points (Per category per zone)
1. Passenger Car	30
2. Sports Utility Vehicles (SUVs)	30
3. Passenger Van	10
4. Other Passenger Vehicle	Not Evaluated
5. Related Services (Applicable across all zones)	30
6. Other Related Services (Applicable across all zones)	Not Evaluated
7. Volume Based Discount (Applicable across all zones)	Not Evaluated
TOTAL POINTS:	100

Point allocations for the Commercial Response sections for Category B are as follows:

Commercial Response Sections	Category B Available Points (Per category per zone)
1. Commercial Truck	35
2. Commercial Van	35
3. Other Commercial Vehicle	Not Evaluated
4. Related Services (Applicable across all zones)	30
5. Other Related Services (Applicable across all zones)	Not Evaluated
6. Volume Based Discount (Applicable across all zones)	Not Evaluated
TOTAL POINTS:	100

Detailed sub-point allocations are set out in the Appendix B – Commercial Response on OTP.

Rates will be evaluated using a relative formula. See example below:

EXAMPLE OF COMMERCIAL RESPONSE EVALUATION FOR CATEGORY A – PASSENGER VEHICLE – SPORTS UTILITY VEHICLES (SUVs)		
Proposed Rates	Calculation	Resulting Points
If Proponent 1 proposes the lowest Rate of \$100.00, it would receive 100% of the points allocated.	$\$100 \div \100×5 Points	5
If Proponent 2 proposes the second lowest Rate of \$200.00, it would receive 50% of the points allocated.	$\$100 \div \200×5 Points	2.5
If Proponent 3 proposes the third lowest Rate of \$400.00, it would receive 25% of the points allocated.	$\$100 \div \400×5 Points	1.25

Where \$0.00 is entered in any Rate cell, it is deemed to mean that the particular Service **will be provided to Customers at no additional cost**. Therefore, when evaluating and scoring the Rates, a Proposal specifying \$0.00 in a Rate cell in the Commercial Response shall receive the maximum point allocation for that particular Service. The remaining Proposals will be evaluated using a relative formula based on the remaining percentage of available points regardless of the Proposals of \$0.00 Rate as per below example.

EXAMPLE –WHERE PROPOSALS WERE RECEIVED WITH 100% DISCOUNT		
Number of Proposals with a proposed Rate of \$0.00 for a particular Service	The number of remaining Proposals with a Service Rate greater than \$0.00	The percentage (%) of the Service sub-point allocation for the remaining Proposals will be:
1	4	80%
2	3	60%
3	2	40%
4	1	20%

Where N/A or not applicable is entered in a Commercial Response cell or a Commercial Response cell is left blank for the Service, it is deemed to mean that the particular Service will **not be provided** to Customers. Therefore, when evaluating and scoring the Rates, a Proposal specifying N/A or not applicable, or left blank in Appendix B – Commercial Response will receive a zero (0) point allocation for that particular pricing section.

Stage III resulting scores per Eligible Proposal will be used when determining the cumulative score per Category, as described below in Section 3.5.

3.5 Stage IV – Cumulative Score

At this stage, the scores from Stages II, and III will be combined for each Eligible Proposal per Category.

Subject to the express and implied rights of OECM; the Proponents with the highest scoring Eligible Proposals or all Proponents per Category may become the Preferred Proponents, and be invited to negotiations, as further described below.

Reference checks will be performed to confirm or clarify information provided within the Proposal. The reference checks themselves will not be scored, however, OECM may adjust Technical Response scores related to the information obtained during the reference check.

3.6 Stage V – Tie Break Process

At this stage, where two (2) or more of the highest scoring Eligible Proposals per Category achieve a tie score on completion of the Stage IV, OECM may invite all Proponents per Category to negotiations or break the tie by selecting the Proposal per Category with the highest score in Stage II – Technical Response.

3.7 Stage VI – Negotiations

Concurrent negotiations, with the Preferred Proponents, will be based on the RFP Deliverables, and the Proposals, understanding that OECM is seeking the best overall solution and value for money for Customers.

The negotiations may include:

- (a) RFP Deliverables;
- (b) Master Agreement management (e.g., performance, KPIs, penalties, reporting);
- (c) Master Agreement terms and conditions;
- (d) Additional references, if required;
- (e) Rates; and,
- (f) Best and Final Offer.

OECM may also request supplementary information from a Preferred Proponent to verify, clarify or supplement the information provided in its Proposal or confirm the conclusions reached in the evaluation and may include requests by OECM for improved Rates.

OECM intends to complete negotiations within fifteen (15) calendar days after notification. If, for any reason, OECM and a Preferred Proponent fail to reach an agreement within the aforementioned timeframe, OECM may:

- i. Request the Preferred Proponent to submit its Best and Final Offer;
- ii. Terminate negotiations with that particular Preferred Proponent;
- iii. Extend the negotiation timeline; or,
- iv. Publish one (1) or some of the Suppliers, who have executed Master Agreements, within our promotional marketing launch.

Other Master Agreements, if successfully negotiated with other Preferred Proponents would be added to OECM's website at a later date.

Upon successful negotiations, the Preferred Proponent will be invited to execute a Master Agreement.

3.8 Stage VII – Master Agreement Finalization

The Preferred Proponent will be given five (5) Business Days to execute the Master Agreement, unless otherwise specified by OEMC. Once the Master Agreement has been executed, Customers may execute a CSA.

OEMC shall at all times be entitled to exercise its rights under Section 4.6.

- (a) Abide by OECM's SCC;
- (b) Report violations of the SCC or identify any Customer requests that might constitute violations; and,
- (c) Cooperate and collaborate with OECM and bring about the resolution of SCC compliance issues.

Compliance with SCC principles is a criterion that is taken into consideration in OECM's Supplier selection process and ongoing performance and relationship management.

The practices adopted by the Supplier must be verifiable. Such verification may be conducted by way of a Supplier's self-evaluation and/or an audit completed by OECM at its discretion. The Supplier must provide, upon request, OECM with documents attesting to their compliance with the SCC.

In addition, OECM may elect to visit the Suppliers' facilities if OECM so chooses. Appropriate notice will be provided to the Supplier. Whenever a situation of non-compliance is identified, OECM will endeavor to work with the Supplier in order to develop a corrective plan to resolve the non-compliant issues in a timely manner.

Failure to comply with OECM's SCC may result in termination of this Master Agreement.
