

Software License Products and Related Services

The **3rd generation** of Software License Products and Related Services offers a large selection of education and enterprise licenses, including Microsoft and Adobe.

Building on almost a decade of successful consultation and collaboration with Ontario's Public Sector customers, as well as supplier partners, this **3rd generation** agreement incorporates enhanced benefits and greater value and cost savings.

Over a Decade of Successful Collaboration

Highlights of the New Software License Agreement

- 14** Awarded Supplier Partners
- Increase in number of suppliers allows customers to gain a comprehensive list of software licenses throughout the agreement
