## PART 1 – INTRODUCTION

This non-binding Request for Supplier Qualifications (“RFSQ”) is a refresh process for Electrical Products (“Products”) and an invitation to obtain Proposals from additional qualified Proponents. The objective is to pre-qualify prospective Suppliers and establish Master Agreements for OEM Customers to use on an as-and-when-required basis. Refer to Part 2 – The Deliverables of this RFSQ for a full description of the requirements.

The Proponent must not be a United States of America Business (“U.S. Business”), where U.S. Business means a supplier, manufacturer, or distributor of any business structure (including a sole proprietorship, partnership, corporation, or other business structure) that: (i) has its headquarters or main office located in the U.S., and (ii) has fewer than two-hundred and fifty (250) full-time employees in Canada. If a Proponent is a subsidiary of another corporation, part (i) of the definition above is met if that Proponent is controlled by a corporation that has its headquarters or main office located in the U.S. Refer to Section 1A.2 for more information.

This RFSQ is issued by OEMC.

### 1.1 Objective of this RFSQ

The objective of this RFSQ is to create a list of qualified Suppliers capable of providing quality Products to OEMC Customers, and to select Suppliers that:

- (a) Are licensed as required in Ontario and capable of providing quality Products in a timely manner;
- (b) Possess the ability to facilitate Original Equipment Manufacturer (“OEM”) Product warranty, as applicable;
- (c) Provide professional and timely customer support to Customer’s (e.g., orders, technical support, warranty claims, health and safety support (e.g., OEM training, information on Product selection, safety devices, personal protective equipment, lock out tag out devices));
- (d) Ensure Products meet government legislation/regulations, necessary certifications and shall adhere to environmental considerations and recycling practices, as needed; and,
- (e) Work in a cooperative manner with Customers, are flexible, and innovative (e.g., informing Customers of new innovative lighting fixtures/solutions, new and emerging technology) in providing quality Products.

### 1.2 Authorized Reseller

The Proponent shall be the OEM or an Authorized OEM Reseller of the Deliverables

The Supplier shall provide the appropriate resources with associated skills, experience and knowledge to fulfill RFSQ requirements.

Where components comprising the Deliverables are not provided directly by the Supplier, the OEM of those components shall be deemed to be a Supplier’s Subcontractor and the Supplier shall be responsible for providing those components to the Customer on the terms and conditions of the Contract.

The Supplier’s reseller status shall be maintained throughout the Term of the Master Agreement (“Term”), with any changes of status to be communicated to OEMC within thirty (30) days of such change.

Authorized Reseller means the OEM has authorized the Supplier to market, advertise, sell and maintain Products directly to Customers on the OEM’s behalf as a provider.

### 1.3 Project Background

Currently, OEMC has Electrical Products agreements in place with three (3) Suppliers.

Customers using OEMC’s current Master Agreements are not, in any way, obligated to participate in any Master Agreement resulting from this RFSQ.

## 1.4 Award Strategy

OECM may, through this RFSQ process, enter into Master Agreements with one (1) or more Suppliers who are not U.S. Businesses for the provision of the Products. Refer to Section 1A.2 for the definition of U.S. Business.

The Term for Master Agreements resulting from this RFSQ shall expire on July 29, 2027.

According to applicable trade agreements, OECM is refreshing this RFSQ by providing other suppliers an opportunity for inclusion. The refresh process requirements will be aligned with this RFSQ. Should additional suppliers be added during a refresh process, all Master Agreements will be co-terminus.

Customers participating in the Master Agreements will execute a Customer-Supplier Agreement ("CSA") with a Supplier as attached in Appendix A – Form of Master Agreement. Prior to executing a CSA, the Customer may negotiate their unique requirements and further negotiate with the Supplier and mutually agree to additional terms and conditions (e.g., reporting, Rates specific to the Customer's requirements and volumes) ensuring the additional terms and conditions are not in any way inconsistent with the Master Agreement agreed to by OECM and the Supplier.

The Supplier must provide a copy of every CSA to OECM within thirty (30) days of execution.

### 1.4.1 No Contract until Execution of Written Master Agreement

This RFSQ process is intended to identify Proponents for the purpose of negotiation of potential Master Agreements. The negotiation process is further described in Part 3 – Evaluation of Proposals, Section 3.7 of this RFSQ.

**No** legal relationship or obligation regarding the procurement of any Products shall be created between the Proponent and OECM by this RFSQ process until the successful completion of negotiation and execution of a written Master Agreement for the provision of the Products has occurred.

The Master Agreement must be fully executed before the provision of any Deliverables commences.

### 1.4.2 Customer's Usage of Master Agreements

The establishment and use of the Master Agreement consists of a two (2) part process.

**Part One**, which is managed by OECM, is the creation of the Master Agreement through the issuance of this RFSQ, the evaluation of Proposals submitted in response to it and the negotiation and execution of the Master Agreement.

**Part Two**, the Second Stage is managed by the Customer or by OECM on the Customer's behalf and is focused on the Customer's specific needs. Depending on the Customer's internal policies, and potential dollar value of the Products a Customer may:

- (a) Select a Supplier, obtain Rates and sign a CSA; or,
- (b) Seek Rates and other relevant Product information specific to a Customer's organization (e.g., by issuing a non-binding request via a Second Stage tool or Customer's process (e.g., directly or via an online e-tendering platform)) from the Supplier for their specific Product requirements. If selected by the Customer, the Supplier shall provide the Products in accordance with the Master Agreement and in the Customer's CSA.

When a Second Stage request is issued, which does not constitute a contract A, contract B situation, it will identify the required Products or it may request the Supplier to propose appropriate Products to fulfill the Customer's requirements and any other applicable information.

The Customer may negotiate their unique requirements (e.g., reporting, Rates, the length of time the Rates remain firm, invoicing) with the Supplier and mutually agree to additional terms and conditions ensuring the additional terms and conditions are not in any way inconsistent with the Master Agreement.

The Supplier must respond to a Second Stage request and, at minimum, the response should set out the following:

- (a) Proposed Products;
- (b) Lead times for Products; and,
- (c) Final, net Rates. The Rates should be valid for a period of not less than ninety (90) days, or as requested by the Customer. Limited time offer Rates and/or promotional Rates must be specified by the Supplier, if applicable to the specific Second Stage request.

#### **1.4.3 No Guarantee of Volume of Work or Exclusivity of Master Agreement**

The volume information contained in this RFSQ constitutes an estimate and is supplied solely as a guideline to the Proponent. Such information is not guaranteed, represented, or warranted to be accurate, nor is it necessarily comprehensive or exhaustive.

Nothing in this RFSQ is intended to relieve the Proponent from forming its own opinions and conclusions with respect to the matters addressed in this RFSQ. Volumes are an estimate only and may not be relied on by the Proponent.

OECM makes no guarantee of the value or volume of work to be assigned to the Supplier.

Stage VII	Master Agreement Finalization	3.8	Not Applicable	Not Applicable

### 3.2 Stage I – Review of Qualification Responses (Pass/Fail)

Stage I will consist of a review to determine which Proposals comply with all qualification requirements.

The Proponent **must** complete the following forms in Ontario's Tenders Portal ("OTP") to qualify and proceed to the next stage of evaluation.

Title	OTP Envelope
Qualification Response	Qualification
Appendix B – Commercial Response (in Microsoft Excel format only)	Commercial

If the Proponent fails to insert information contained in the above forms, OECM may provide an opportunity to rectify such deficiency within a period of two (2) Business Days from notification thereof. Only Proponents satisfying the identified deficiencies within allotted time will proceed to Stage II.

Other than inserting the information requested on the qualification submission forms set out above, the Proponent may not make any changes to any of the forms. Any Proposal containing any such changes, whether on the face of the form or elsewhere in the Proposal, may be disqualified.

A Proposal may **not** be evaluated further if the Proponent is a U.S. Business. A Proponent shall represent and warrant in its Proposal that it is not a U.S. Business.

### 3.3 Stage II – Technical Response

Stage II will consist of an evaluation and scoring of the Technical Response of each Eligible Proposal.

The Technical Response includes a series of questions the Proponent is required to respond to in order to demonstrate the Proponent's ability to fulfill the RFSQ Deliverables for the Products being proposed and Master Agreement management. Only information contained within the Technical Response will be evaluated in Stage II.

Only Eligible Proposals that meet or exceed the minimum thresholds will receive a **pass** in this stage and proceed to Stage III of the evaluation process. While the overall minimum threshold for the Technical Response is sixty percent (60%) or ninety (90) points, each Technical Response section also has a minimum threshold of sixty percent (60%).

Point allocations for the Technical Response sections are as follows:

Technical Response Sections	Available Points	Minimum Threshold, if any
1. Proponent's Qualifications	45	27
2. Proponent's Customer Support	75	45
3. Proponent's Reporting Capabilities	15	9
4. Proponent's Performance Management	15	9
<b>TOTAL POINTS:</b>	<b>150</b>	<b>90</b>

Detailed sub-point allocations and minimum thresholds are set out in the Technical Response on OTP.

In the case that contradictory information or information that contains conditional statements is provided, OECM will determine whether the response complies with the requirements, and may seek clarification from the Proponent.

An Eligible Proposal that does not respond to a particular question (e.g., it is left blank) or contains a response of N/A or not applicable will receive a zero (0) score.

Stage II resulting scores per Eligible Proposal will be used when determining the cumulative score as described below in Section 3.5.

### 3.4 Stage III – Commercial Response

The Proponent **must** complete and upload Appendix B – Commercial Response, in Microsoft Excel format only, into the OTP Commercial Envelope for this stage of evaluation.

Upon the completion of Stage II of the evaluation, the Commercial Response will be opened for all Eligible Proposals.

Point allocations for the Commercial Response sections are as follows:

Commercial Response Sections	Available Points
1. Product List	50
<b>TOTAL POINTS:</b>	<b>50</b>

Detailed sub-point allocations are set out in Appendix B – Commercial Response on OTP.

Rates will be evaluated using a relative formula. See example below:

<b>EXAMPLE OF COMMERCIAL RESPONSE EVALUATION</b>		
Proposed Rates	Calculation	Resulting Points
If Proponent 1 proposes the lowest Rate of \$100.00, it would receive 100% of the points allocated.	$\$100 \div \$100 \times 10 \text{ Points}$	10
If Proponent 2 proposes the second lowest Rate of \$200.00, it would receive 50% of the points allocated.	$\$100 \div \$200 \times 10 \text{ Points}$	5
If Proponent 3 proposes the third lowest Rate of \$400.00, it would receive 25% of the points allocated.	$\$100 \div \$400 \times 10 \text{ Points}$	2.5

Where \$0.00 is entered in any Rate cell, it is deemed to mean that the particular Product **will be provided to Customers at no additional cost**. Therefore, when evaluating and scoring the Rates, an Eligible Proposal specifying \$0.00 in a Rate cell in the Commercial Response shall receive the maximum point allocation for that particular Product. The remaining Eligible Proposals will be evaluated using a relative formula based on

the remaining percentage of available points regardless of the Eligible Proposals of \$0.00 Rate as per below example.

<b>EXAMPLE – WHERE FIVE (5) PROPOSALS WERE RECEIVED</b>		
Number of Eligible Proposals with a proposed Rate of \$0.00 for a particular Product	The number of remaining Eligible Proposals with a Product Rate greater than \$0.00	The percentage (%) of the Product sub-point allocation for the remaining Eligible Proposals will be:
1	4	80%
2	3	60%
3	2	40%
4	1	20%

Where N/A or not applicable is entered in a Commercial Response cell or a Commercial Response cell is left blank for the Product, it is deemed to mean that the particular Product will **not be provided** to Customers. Therefore, when evaluating and scoring the Rates, an Eligible Proposal specifying N/A or not applicable, or left blank in Appendix B – Commercial Response will receive a zero (0) point allocation for that particular pricing section.

Stage III resulting scores per Eligible Proposal will be used when determining the cumulative score as described below in Section 3.5.

### **3.5 Stage IV – Cumulative Score**

At this stage, the scores from Stages II, and III will be combined for each Eligible Proposal.

Subject to the express and implied rights of OEM; the Proponents with the highest scoring Eligible Proposals or all Proponents may become the Preferred Proponents, and be invited to negotiations, as further described below.

Reference checks will be performed to confirm or clarify information provided within the Proposal. The reference checks themselves will not be scored, however, OEM may adjust Technical Response scores related to the information obtained during the reference check.

### **3.6 Stage V – Tie Break Process**

At this stage, where two (2) or more of the highest scoring Eligible Proposals achieve a tie score on completion of the Stage IV, OEM may invite all Proponents to negotiations or break the tie by selecting the Eligible Proposal with the highest score in Stage II – Technical Response.

### **3.7 Stage VI – Negotiations**

Concurrent negotiations, with the Preferred Proponents, will be based on the RFSQ Deliverables, and the Proposals, understanding that OEM is seeking the best overall solution and value for money for Customers.

The negotiations may include:

- (a) RFSQ Deliverables;
- (b) Master Agreement management (e.g., performance, KPIs, penalties, reporting);
- (c) Master Agreement terms and conditions; and,
- (d) Rates.

OEM may also request supplementary information from a Preferred Proponent to verify, clarify or supplement the information provided in its Proposal or confirm the conclusions reached in the evaluation and may include requests by OEM for improved Rates.

OECM intends to complete negotiations within fifteen (15) calendar days after notification. If, for any reason, OECM and a Preferred Proponent fail to reach an agreement within the aforementioned timeframe, OECM may:

- i. Request the Preferred Proponent to submit its Best and Final Offer;
- ii. Terminate negotiations with that particular Preferred Proponent; or,
- iii. Extend the negotiation timeline.

Other Master Agreements, if successfully negotiated with other Preferred Proponents would be added to OECM's website at a later date.

Upon successful negotiations, the Preferred Proponent will be invited to execute a Master Agreement.

### **3.8 Stage VII – Master Agreement Finalization**

The Preferred Proponent will be given five (5) Business Days to execute the Master Agreement, unless otherwise specified by OECM. Once the Master Agreement has been executed, Customers may execute a CSA.

OECM shall at all times be entitled to exercise its rights under Section 4.6.

The Proponent is advised that there will not be a public opening of this RFSQ. OECM will open Proposals at a time subsequent to the Closing Date.

#### **4.3.13 Clarification of Proposals**

OECM shall have the right at any time after the Closing Date to seek clarification from any Proponent in respect of the Proposal, without contacting any other Proponent.

OECM will exercise this right in a similar manner for all Proponents.

Any clarification sought shall not be an opportunity for the Proponent to either correct errors or to change its Proposal in any substantive manner. Subject to the qualification in this provision, any written information received by OECM from a Proponent in response to a request for clarification from OECM may be considered, if accepted, to form an integral part of the Proposal.

OECM shall not be obliged to seek clarification of any aspect of any Proposal.

#### **4.3.14 Verification of Information**

OECM shall have the right, in its sole discretion, to:

- (a) Verify any Proponent's statement or claim made in its Proposal or made subsequently in a clarification, interview, site visit, presentation, demonstration, or discussion by whatever means OECM may deem appropriate, including contacting persons in addition to those offered as references, and to reject any Proponent statement or claim, if such statement or claim or its Proposal is patently unwarranted or is questionable, which may result in changes to the scores for the Proponent's Technical Response; and,
- (b) Access the Proponent's premises where any part of the work is to be carried out to confirm Proposal information, quality of processes, and to obtain assurances of viability, provided that, prior to providing such access, the Proponent and OECM shall have agreed on access terms including pre-notification, extent of access, security and confidentiality. OECM and the Proponent shall each bear its own costs in connection with access to each other's premises.

The Proponent shall co-operate in the verification of information and is deemed to consent to OECM verifying such information, including references.

#### **4.3.15 Proposal Acceptance**

The lowest price Proposal or any Proposal shall not necessarily be accepted. While price is an evaluation criterion, other evaluation criteria as set out in Part 3 will form a part of the evaluation process.

#### **4.3.16 RFSQ Incorporated into Proposal**

All provisions of this RFSQ are deemed to be accepted by each Proponent and incorporated into each Proposal.

#### **4.3.17 Exclusivity of Contract**

The Master Agreement, if any, with the Preferred Proponent will not be an exclusive agreement for the provision of the described Deliverables.

#### **4.3.18 Substantial Compliance**

OECM shall be required to reject Proposals, which are not substantially compliant with this RFSQ.

#### **4.3.19 No Publicity or Promotion**

No Proponent, including the Preferred Proponent, shall make any public announcement or distribute any literature regarding this RFSQ or otherwise promote itself in connection with this RFSQ or any arrangement entered into under this RFSQ without the prior written approval of OECM.

In the event that a Proponent, including the Preferred Proponent, makes a public statement either in the media or otherwise in breach of this requirement, in addition to any other legal remedy it may have in law, in equity or within the context of this RFSQ, OECM shall be entitled to take all reasonable steps as may be deemed necessary by OECM, including disclosing any information about a Proposal, to provide accurate information and/or to rectify any false impression which may have been created.

#### **4.4 Negotiations, Timelines, Notification and Debriefing**

##### **4.4.1 Negotiations with Preferred Proponent**

OECM reserves the right to accept or reject any Proposals in whole or in part; to waive irregularities and omissions, if doing so is in the best interests of OECM and its Customers.

The Preferred Proponent shall execute the Master Agreement in the form attached to this RFSQ with negotiated changes, if any, and satisfy any other applicable conditions of this RFSQ within twenty (20) days of invitation to enter into negotiations. This provision is solely to the benefit of OECM and may be waived by OECM at its sole discretion.

If the Preferred Proponent and OECM cannot execute the Master Agreement within the allotted twenty (20) days, OECM will, as described in Section 3.7 and 3.8, be at liberty to extend the timeline, request the Preferred Proponent to submit its Best and Final Offer, terminate discussions/negotiations with the Preferred Proponent, or publish one (1) or some of the Suppliers, who have executed Master Agreements within OECM's promotional marketing launch. Other Master Agreements, if successfully negotiated with other Preferred Proponents would be added to OECM's website at a later date.

##### **4.4.2 Failure to Execute a Master Agreement**

When the Preferred Proponent successfully reaches an agreement with OECM at the end of the negotiation process in accordance with the evaluation set out in this RFSQ, the Preferred Proponent will be allotted five (5) Business Days to execute the Master Agreement unless otherwise specified by OECM.

If the Preferred Proponent cannot execute the Master Agreement within the allotted timeframe, OECM may rescind the invitation to execute a Master Agreement or publish one (1) or some of the Suppliers, who have executed Master Agreements within OECM's promotional marketing launch. Other Master Agreements, if successfully negotiated with other Preferred Proponents would be added to OECM's website at a later date.

In accordance with the process rules in this Part 4 – Terms and Conditions of the RFSQ Process, there will be no legally binding relationship created with any Proponent prior to the execution of a written agreement.

##### **4.4.3 Master Agreement**

If a Master Agreement is subsequently negotiated and awarded to a Preferred Proponent as a result of this RFSQ process:

- (a) Any such Master Agreement will commence upon signature by the duly authorized representatives of OECM and the Preferred Proponent; and,
- (b) May include, but not be limited to, the general Master Agreement terms contained in Appendix A – Form of Master Agreement.

#### **4.4.4 Notification to Other Proponents**

Once the Master Agreement is executed, other Proponents will be notified directly in writing and shall be notified by public posting in the same manner that the RFSQ was originally posted of the outcome of the procurement process and the award of the contract.

#### **4.4.5 Debriefing**

Any Proponent may request a debriefing after receipt of a notification of award. All requests must be in writing to OECM and should be made within sixty (60) days of notification of award. The intent of the debriefing information session is to aid the Proponent in presenting a better proposal in subsequent procurement opportunities. Any debriefing provided is not for the purpose of providing an opportunity to challenge the procurement process.

#### **4.4.6 Bid Dispute Resolution**

In the event that the Proponent wishes to review the decision of OECM in respect of any material aspect of the RFSQ process, and subject to having attended a debriefing, the Proponent shall submit a protest in writing to OECM within ten (10) days from such a debriefing.

Any request that is not timely received will not be considered and the Proponent will be notified in writing.

During any part of this RFSQ process, OECM or any of its representatives or agents shall be under no obligation to execute a confidentiality agreement.

In the event that a Proponent refuses to participate in any required stage of the RFSQ because OECM has refused to execute any such confidentiality agreement, the Proponent shall receive no points for that particular stage of the evaluation process.

#### **4.5.3 Proponent's Submission**

All correspondence, documentation, and information provided in response to or because of this RFSQ may be reproduced for the purposes of evaluating the Proposal.

- (c) Consent – It is the responsibility of the Proponent to obtain the consent of such individuals prior to providing the information to OECM. OECM will consider that the appropriate consents have been obtained for the disclosure to and use by OECM of the requested information for the purposes described.

By submitting a Proposal, including any Personal Information requested in this RFSQ, the Proponent agrees to the use of such information for the evaluation process, for any audit of this procurement process, and for contract management purposes.

Master Agreement performance means the Supplier aligns with OEM's three (3) pillars of Savings, Choice and Service, supporting the growth of the Master Agreement among Customers, and providing quality products and services at competitive Rates.

Supplier performance means the Supplier meets or exceeds the performance requirements described below and adheres to all the other contractual requirements.

As part of OEM's efforts to provide greater value to Customers, OEM has implemented a Supplier Recognition Program ("SRP"). Through the SRP, OEM will objectively assess Supplier's performance using an open, fair and transparent framework to recognize and reward top-performing suppliers on an annual basis.

To ensure Master Agreement requirements are met, the Supplier's performance will be measured and tracked by OEM to ensure:

- (a) On time delivery of high-quality products and services at the Master Agreement Rates or lower;
- (b) Customer satisfaction;
- (c) On-time Master Agreement activity reporting to OEM;
- (d) On-time Cost Recovery Fee remittance; and,
- (e) Continuous improvement.

Reporting, as described in Appendix C – Supplier Reporting Requirements is mandatory for the Supplier to submit as they provide evidence and justification of adherence to the Master Agreement. Through consolidation of reporting information, OEM provides Customers a thorough understanding of the Supplier's performance aiding the adoption of the Master Agreement.

By providing the reports, OEM is able to analyze and maintain the integrity of the Supplier's performance.

Failure, by the Supplier, to provide accurate reports by the due dates set out in Appendix C – Supplier Reporting Requirements may be deemed poor performance and will reflect on the Supplier's Performance Management Scorecard and SRP results.

During the Term of the Master Agreement, the Supplier shall collect and report the agreed upon results of the performance measures as requested by OEM. The Performance Management Scorecard and other performance indicators will be used to measure the Supplier's performance throughout the Term of the Master Agreement, ensuring Customers receive appropriate Products on time. The Supplier's performance score will be considered when OEM contemplates Master Agreement decisions such as:

- (a) The approval or rejection, in whole or in part, of the Supplier's Rate refresh requests;
- (b) The approval or rejection of the Supplier's request to add other related products and/or services to the Master Agreement;
- (c) Master Agreement extensions; and,
- (d) Master Agreement termination.

The Supplier shall maintain accurate records to facilitate the required performance management reporting requirements related to OEM and Customer KPIs.

The Supplier shall be responsible for all liquidated damages incurred by the Customers as a result of Supplier's failure to perform according to the Master Agreement and/or CSA. Additional penalties for failure to meet or rewards for exceeding the Master Agreement and/or CSA requirements may be mutually agreed upon between the Customer and the Supplier, at the time of CSA execution. Any penalty and/or reward shall be reported to OECM.

- (d) Not engage in any improper conduct to gain influence or competitive advantage especially that which would put OEMC or its Customers at risk of violating anti-bribery and/or anti-corruption laws. The Supplier must ensure that the requirements of all these applicable laws are met, and not engage in any form of corrupt practices including extortion, fraud or bribery;
- (e) Ensure that any outsourcing and/or subcontracting used to fulfill Products are identified and approved by the Customer and monitored to ensure compliancy with contractual obligations and adherence to OEMC's SCC. Supplier's employees, subcontractors and other service providers must adhere to the requirements of the SCC, which must be made available as necessary. The Supplier must also ensure that its subcontractors and other

service providers are paid properly and promptly to avoid any disruption in the provision of Products by the Supplier to OEMC or its Customers;

- (g) Abide by applicable employment standards, labour, non-discrimination and human rights legislation. Where laws do not prohibit discrimination, or where they allow for differential treatment, the expectation of the Supplier is to be committed to non-discrimination principles and not to operate in an unfair manner. The Supplier must be able to demonstrate that their workplaces operate under the following principles:

- (i) Give high priority to environmental issues and implement initiatives to foster sound environmental management through practices that prevent pollution and preserve resources. The Supplier must conduct business in an environmentally responsible and sustainable manner. The Supplier must comply with all applicable environmental laws, statutes and regulations, including, but not limited to, waste disposal (proper handling of toxic and hazardous waste), air emissions and pollution, to ensure that they meet all legal requirements and strive to prevent or mitigate adverse effects on the environment with a long-term objective of continual improvement.

The Supplier is expected to:

- (a) Abide by OEMC's SCC;
- (b) Report violations of the SCC or identify any Customer requests that might constitute violations; and,
- (c) Cooperate and collaborate with OEMC and bring about the resolution of SCC compliance issues.

Compliance with SCC principles is a criterion that is taken into consideration in OEMC's supplier selection process and ongoing performance and relationship management.

The practices adopted by the Supplier must be verifiable. Such verification may be conducted by way of a Supplier's self-evaluation and/or an audit completed by OEMC at its discretion. The Supplier must provide, upon request, OEMC with documents attesting to their compliance with the SCC.

In addition, OEMC may elect to visit the Suppliers' facilities if OEMC so chooses. Appropriate notice will be provided to the Supplier. Whenever a situation of non-compliance is identified, OEMC will endeavor to work with the Supplier in order to develop a corrective plan to resolve the non-compliant issues in a timely manner.
