

Stay Seen Stay Safe

About VizLite

VizLite Dual Technology phosphorescence offers a third level of protection, when there is low light or no light, by giving off an intense glow for up to 8 hours, without the use of batteries. VizLite Dual Technology phosphorescence is charged by ultraviolet light after five to ten minutes of exposure.

Why VizLite?

3rd Level of Protection

- Harnesses phosphorescent and reflective technologies for ultimate visibility.
- Helps ensure workers are seen in low-light and no-light conditions.
- 8 hours of visibility on a single charge.
- No batteries required.
- Visible from over 200 meters.
- Functional in extreme conditions: -30°C and underwater.

Customization Options

- Add VizLite Dual Technology taping to new or pre-existing garments and accessories.
- Create custom logos, badges, and decals with screen printing and cutting.

The Future of Hi-Visibility Workwear

Mark's Commercial partners with forward-thinking businesses to prioritize safety. Our private label workwear combines VizLite Dual Technology with CSA-grade Hi-Visibility protection.
